Patient Notice for Tests, Labs, Imaging and Referrals

Gastroenterology Center may order diagnostic tests, lab works, x-rays, CT-scans, endoscopy procedures, pathology reports…. Due to the diversity of tests ordered by the physician, the time frame for results will also vary. A follow up appointment with the physician is important and will be scheduled (in-person or Telehealth) to discuss and professionally interpret the results with the patient.

Our office will NOT contact the patient with the results. The results also will not be discussed at the time of the endoscopy procedure being performed. If tests are done at Huguley Hospital Labs, they will be transmitted directly to our patient system. Typically, within 7 business days after the testing has been completed. Some results may take longer. The patient may access the **"Patient Portal"** to check the results. The Patient Portal is part of our protected patients' Electronic Healthcare system and requires a working patient's email so a link with a user ID and password is emailed directly.

If it is not possible to access the results within 14 business days, it is the responsibility of the patient to contact the Medical Assistant at our office to discuss the reason. **It is the responsibility of the patient to contact our office to discuss the results over the phone if it is not possible to attend the follow up appointment.**

If the patient has testing performed at Quest Diagnostics, LabCorp or a facility other than Huguley Hospital Lab, it is the **patient responsibility** to have the results sent to us. Please contact our Medical Assistant before your follow up visit to make sure that we received your results. Facilities like Quest Diagnostics and LabCorp do not send us your results.

If the physician refers the patient to another facility or doctor, it is the patient responsibility to contact the facility or the doctor to obtain an appointment.
